

2021 Term 2 After School Classes

BRICKS 4 KIDZ® After School Classes are built on the popularity of LEGO® to deliver high quality Educational Play!

Core STEM (Science, Technology, Engineering and Mathematics) content are integrated into all our programs. During each session, we incorporate our philosophy – We Learn! We Build! We Play!

Engineering Adventures

So you want to be an engineer or architect? Well what are you waiting for? This is your chance! Join us as we put our engineering skills to the test to build bridges, buildings, vehicles and more. We'll learn about different types of careers for you to explore. Do you like to design cities? You might become an urban architect one day! Do you want to build bridges? Then civil engineering might be the

job for you! Want to design the next cool electric car? Then you may be destined to become an automotive or mechanical engineer! Come experience engineering adventures with us!

Ages 5+

Engineering Adventures WeDo 2.0 Junior Robotics

BRICKS 4 KIDZ® is thrilled to be offering Engineering Adventures combined with WEDO® 2.0 Software Programming. This program is an excellent introduction to basic concepts of robotics and computer programming.

So you want to be an engineer or architect? Well what are you waiting for? This is your chance! Join us as we put our engineering skills

to the test to build bridges, buildings, vehicles and more. We'll learn about different types of careers for you to explore. Do you like to design cities? You might become an urban architect one day! Do you want to build bridges? Then civil engineering might be the job for you! Want to design the next cool electric car? Then you may be destined to become an automotive or mechanical engineer! All About Sports MINDSTORMS® EV3® Advanced Robotics

Calling all sports fanatics! The energetic BRICKS 4 KIDZ® “All About Sports” EV3 Robotics unit is perfect for both athletes and technical thinkers. Challenge others to a game of basketball or soccer after building these models and creating the software programs to control them. How many shots can you make in 60 seconds? Why would there be laughter in a sports stadium?

Contemplate these questions and more as you build these fun sports models. Put your technology skills to the test when you create the software programs for each model and watch them perform!

Ages 9+
