

# Staffing at OSHC

We follow the Education and Care Services National Regulations at our OSHC service. This means that we have the following educator to child ratios at all times:

- Sessions in which one or more kindy children are attending = 1 educator for every 10 children  
For every 30 children in attendance, one of those children must hold an appropriate qualification in childcare.
- Sessions in which no kindy child will be attending = 1 educator for every 13 children.  
For every 40 children in attendance, one of those children must hold an appropriate qualification in childcare.
