

March 2022

**TEMPORARY CLOSURE – WHATLEY CRESCENT AND KING WILLIAM STREET  
INTERSECTION – APRIL 2022**

The Whatley Crescent and King William Street intersection will temporarily close to motorists, pedestrians, and cyclists for five days from Thursday 7 April to Monday 11 April 2022 to enable the lifting and installation of bridge beams, which will support the new Bayswater Station rail bridge.

While we appreciate the closure may be disruptive to the community and road users, several other work options were assessed, and this option is a combination of the safest and least disruptive.

Other traffic changes will occur in the area to ensure work can be undertaken safely, including:

- King William Street temporarily closed between Railway Parade and Murray Street.
- Eastbound traffic only on Railway Parade between Coode and Drake streets.

**Whatley Crescent partial road closure**

- Whatley Crescent temporarily closed between King William and Leake streets from Thursday 7 April to Wednesday 13 April.

**What to expect**

- Local traffic detours will be signposted. Please refer to map overleaf for detours in place,
- Businesses in the town centre will remain open,
- Access to the Leake Street underpass will be maintained,
- Night works are expected,
- Changed traffic conditions including lane closures and detours, and eastbound traffic only on Railway Parade between Coode and Drake streets,
- Local access will be maintained for impacted residents and property owners,
- Pedestrian and cyclist access will be maintained on the shared path along Railway Parade,
- Services for bus routes 48, 998 and 999 will be disrupted. Please visit [transperth.wa.gov.au](http://transperth.wa.gov.au) for further information, and
- Pedestrian access across the railway will be via the Leake Street underpass or Bayswater Station pedestrian crossing.

Please visit [metronet.wa.gov.au](http://metronet.wa.gov.au) or call 9326 3666 for more information.

Your patience and understanding while we conduct this work are greatly appreciated.

Regards,

METRONET team  
New Bayswater Station project
